Prompt Engineering

This competition challenges participants to craft precise, creative, and well-structured prompts that unlock high-quality outputs from AI tools. It puts your creativity, logical thinking, and real understanding of how AI responds.

Round 1:

Participants will be given a high-stakes AI challenge at the venue. Using only prompt engineering techniques, they must design a clear, structured prompt that effectively guides the AI toward the desired outcome. Evaluation will be based on clarity, logical framing, constraint handling, and overall strategic design. All registered participants compete in this round.

Round 2:

Top 14 participants will participate in the Final Round.Finalists will tackle a more complex challenge requiring layered prompt design, adaptive reasoning, and strong control over AI behavior. They may also be asked to justify and defend their prompt strategy before the judges.

Eligibility:

Open to undergraduate students across all disciplines. Individual Participation only.

Guidelines:

Prompts must be within the token limit, align with the assigned task, and remain appropriate. Participants must use the provided AI tool without external assistance.

Evaluation criteria:

Clarity & Structure – Logical, precise, and well-organized prompt design.
Strategic Design – Effectively guides AI toward the intended outcome.
Constraint Handling – Clearly defines rules and boundaries.
Creativity – Original and thoughtful approach.
Relevance – Strong alignment with the assigned task.

Additional Rules:

Code of Conduct: Participants must maintain professionalism and respect towards peers and organizers.

Disqualification: Plagiarism, offensive content, or late submissions will result in disqualification.

Judges Decision: All decisions by judges are final and binding.

Prizes

First Prize:	Rs.10,000/-
Second prize:	Rs.5000/-
Third prize:	Rs.3000/-

Poster Competition

Event Rulebook

Poster Competition Details

Topics of Interest:

- AI & Machine Learning for Social Good
- Cybersecurity & Blockchain
- Emerging Technologies & Electronics
- Computational Sciences & Advanced Engineering
- AI Agents & Future Technologies
- Sustainability & Beyond

Open to more innovative ideas beyond these topics!

General guidelines

- The poster should be well-structured and include the following sections: Title, Introduction, Objective, Abstract, Methodology, Results, and Conclusion, accompanied by high-resolution visuals for better clarity.
- The design must be created using Canva, Adobe Illustrator or any other graphic designing tools, with a poster size of 2 Feet x 3 Feet (24x36 inches, vertical orientation). Ensure that text is justified, diagrams are centered, and the layout remains clean and uncluttered for a professional appearance.
- All posters must be submitted within the given deadline, and participants are required to present their posters in person. Each team or individual will have 5-10 minutes to explain their work.
- All sources must be properly cited using the IEEE or APA to maintain academic integrity.

Submission

Participants are required to submit both a hard copy (mandatory) and a soft copy of their poster at the time of the event.

Eligibility:

1. Open to All students
2. Maximum 4 students are allowed per poster(group).

Prizes

First Prize:	10,000/-
Second prize:	5000/-
Third prize:	3000/-

Circuit Design

ABOUT

Circuit Design tests undergraduate students in real-time circuit design, assessing practical engineering skills, schematic understanding and independent problem-solving.

1. ELIGIBILITY

- Undergraduate students (Diploma / Engineering / Technology / Applied Sciences).
- Valid institution-issued Student ID mandatory.

2. TEAM COMPOSITION

- Maximum 3 members per team. Cross-branch allowed.

3. EVENT STRUCTURE

Round 1 — Qualifying

- Design & implement a functional circuit.
- Schematic + BOM mandatory.

Round 2 — Final Decider

- Classified problem at round start.
- Design built from scratch.
- Final ranking based solely on Round.

4. PROBLEM STATEMENT FORMAT

- Issued in printed form at round start.
- Includes objective, supply parameters, constraints, and deliverables.

5. TIME LIMITS

- Time per round : 90 mins

6. TOOLS & MATERIALS

- All necessary components and required equipment will be provided by the Organisers.
- Simulation software or physical components will be provided
- No external help or unauthorized tools allowed

7. JUDGING CRITERIA

- Evaluation will be based on functionality, efficiency, innovation, clarity of presentation, and adherence to ethical standards (original designs only).

8. GENERAL RULES

- Design circuits based on the given problem statement

9. SUBMISSION

Presents

Navonmesh- 2026

—----------Where Idea Complete—----------

- Submit within the given time
- Evaluation based on circuit diagram, simulation or live testing

10. PRIZES

- Winner – ₹10,000
- Runner-Up – ₹5,000
- Second Runner-Up – ₹3,000

11. CONTACT INFORMATION

Robo Race (War - Bots)

RoboRace 2026: Design. Build. Race. Dominate.

About : RoboRace 2026 is a robotics competition where participants must bring their own manually or autonomously controlled robots to complete a challenging obstacle track in the least possible time. Precision, stability, speed, and strategy will determine the champion.

Checkpoint System

• The track will include multiple checkpoints.

• If a robot falls off track or is immobilized, it must restart from the last successfully cleared checkpoint.

• Time will continue running during repositioning.

• Judges' decisions regarding checkpoint validation are final.

Robot Specifications

1. The robot must be self-built by the participants.

2. Maximum dimensions: 30 cm × 30 cm × 30 cm (L × B × H).

3. Maximum weight: 5 kg.

4. Power supply must be onboard (no external power supply is allowed).

5. Wired or wireless control is allowed.

6. Robots must not damage the track or other robots.

7. Use of combustion engines or hazardous components is prohibited.

Winning Criteria

• The robot that completes the track in the least time wins.

• In case of a tie, fewer penalties will be considered.

DECCAN EDUCATION SOCIETY - Since 1884

DES PUNE UNIVERSITY

School of Engineering and Technology

Presents

Navonmesh- 2026

—----------Where Idea Complete—----------

• If still tied, a re-run may be conducted.

Penalties

Touching the robot during the run – 10 seconds penalty

Touching the boundaries of the track more than 3 time -the robot being rested to previous checkpoint

Skipping an obstacle – Disqualification

Damaging track elements – Disqualification

Unsportsmanlike behavior – Immediate Disqualification

General Rules

Only 3 members per team are allowed.

Teams must report 30 minutes before their scheduled slot.

Practice runs (if allowed) will be announced beforehand.

The organizing committee reserves the right to modify rules if required. Judges' decisions will be final and binding.

Eligibility

• Open to all Undergraduate & Diploma students.

Code of Conduct: Participants must maintain professionalism and respect towards peers and organizers.

Prizes

First Prize: Rs.10,000/-
Second prize: Rs.5000/-
Third prize: Rs.3000/-

Valorant Tournament

VALORANT TOURNAMENT RULE BOOK

- **General Information**

Game: Valorant

Platform: PC

Organizer: [Institute / Club Name]

Mode: 5v5 Team

Tournament Format: (Knockout)

- **Team Composition**

1. Each team must have 5 main players.

2. Maximum 1 substitute allowed.

3. All players must have a valid Student Identity Card.

4. Player changes are allowed only before match start.

- **Match Format**
- **Match Type : Standard Mode: Custom Game – Tournament Mode**

All matches will be played in 5v5 format.

- **Series Format**

League Matches: Best of 1 (BO1)

Semi-Finals: Best of 1 (BO1)

Finals: Best of 3

- **Map Selection Process**

For BO1:

Toss decides the first ban.

Team A bans 1 map.

Team B bans 1 map.

Continue alternately until 1 map remains.

The last remaining map will be played.

For BO3: (FINALS) **Will be decided by Organizers.**

- **Game Settings**

Mode: Tournament Mode

Cheats: Off

Overtime: On

DECCAN EDUCATION SOCIETY - Since 1884

Win by Two: Enabled

All agents allowed (unless specified)

Patch Version: Latest Live Version

- **Match Rules**

1. The first team to win 13 rounds wins the map.

2. In the case of 12-12, overtime will be played.

3. Each team gets 1 tactical pause (2–3 minutes).

4. Technical pause allowed only for genuine issues.

5. The match must start at scheduled time (5 min grace allowed).

6. If a team fails to report within grace period → Forfeit Loss.

- **Player Conduct**

1. No abusive language, hate speech, or toxic behavior.

2. No cheating, scripting, exploiting bugs.

3. No stream sniping.

4. Players must follow the organizers' decisions.

5. Unsportsmanlike conduct may result in: Disqualification

- **Equipment Rules**

Players must bring their own peripherals: Mouse,Mousepad, Keyboard, Headphones

DECCAN EDUCATION SOCIETY - Since 1884

DES PUNE UNIVERSITY

School of Engineering and Technology

Presents

Navonmesh- 2026

—----------Where Idea Complete—----------

Organizer provides internet and system (LAN)

Note: Players are not allowed to bring laptops as it may cause an unfair advantage.

High ping complaints after match start will not be entertained.

- **Disconnection Rules**

If a player disconnects before Round 3 → Restart possible.
If disconnect occurs after Round 3 → Continue match.
Technical issue time limit: 10 minutes.
Failure to reconnect → Team continues 4v5.
Note: if player disconnects due to any reason (crash, internet failure, etc) then match will be paused until the player reconnects within the grace period.

- **Reporting & Results**

After all matches have been conducted the organizers decision will be final.

Automatically the results will be calculated as knockouts will take place, teams automatically go forward.

- **Prize Distribution (Optional Section)**

1st Prize: ₹ 5000/-

2nd Prize: ₹ 3000/-

3rd Prize ₹ 2000/-

- **Organizer Rights**

DECCAN EDUCATION SOCIETY - Since 1884

DES PUNE UNIVERSITY

School of Engineering and Technology

Presents

Navonmesh- 2026

—----------Where Idea Complete—----------

- ☐ **Organizers reserve the right to:**
- ☐ **Modify rules if necessary.**
- ☐ **Change the match schedule.**
- ☐ **Disqualify teams for misconduct.**
- ☐ **Resolve disputes at their discretion.**

✅ **Code of Fair Play**

Play fair. Respect opponents. Enjoy competitive spirit.
